Robert Dear Indicted on 68 Counts by Federal Grand Jury

On December 9, 2019, the United States Attorney in Denver charged Robert Dear with 68 counts for federal crimes relating to the November 27, 2015 incident at Planned Parenthood in Colorado Springs, Colorado. This is a separate case that will be prosecuted by the United States Attorney.

Our case in the El Paso County District Court remains open and will continue to move forward, independent of the charges filed today by the U.S. Attorney's Office. Mr. Dear's next court appearance is still set for January 9, 2020.

"As one of the many responding agencies, the 4th Judicial District Attorney's Office has worked closely with the U.S. Attorney's Office for the District of Colorado since November 27, 2015," said 4th Judicial District Attorney Dan May. "The indictment, which is fully supported by our office, is a culmination of those joint efforts, and we hope shall serve as notice that the victims in this case will never be forgotten. We want to thank U.S. Attorney's Office for their diligent work."
